📍 No 7, 4th Street, Shanmuga Nagar, Vengikkal, Tiruvannamalai 606604

## Full Stack Developer

**Job Title :** Full Stack Developer

**Location :** Tiruvannamalai

**No.Of.Openings :** 2

**Job Type :** Full-time [ On Site ]

**Experience :** 0-2 years

**Salary :** Negotiable

### Job Summary

We are looking for a Full Stack Developer (0-2 years experience) to join our team. Ideal candidates should have a foundation in web, mobile, and software development, with skills in the MERN stack (**MongoDB, Express, React, Node.js**) and experience with **React Native** and **Electron.js**.

### Responsibilities

- Develop web (**React**) and mobile (**React Native**) applications.
- Build cross-platform desktop apps using **Electron.js**.
- Collaborate on feature implementation, troubleshooting, and app optimization.
- Manage database queries and schemas.
- Write clean, efficient code and follow best practices.
- Participate in code reviews, debugging, and testing.

### Requirements

- 0-2 years of full stack development experience.
- **Front-end**: Proficient in HTML, CSS, JavaScript, React.
- **Back-end**: Familiar with Node.js and basic SQL/NoSQL database management.
- Experience with **React Native** and basic knowledge of **Electron.js**.
- Bachelor's in **Computer Science** or related field.
- Familiar with Git and GitHub for version control.
- **Portfolio showcasing** web, mobile, or desktop projects.
- Knowledge of AWS or Firebase.
